Re: Request for Certificate of Correction

Consideration has been given your request for the issuance of a certificate of correction for the above-identified patent under the provisions of Rule 1.322.

Respecting the alleged error(s) in the Title page, under Item [30], inspection of the patent application reveals that the section is printed in accordance with the record. Via the Notice of Allowability, the attorney/applicant has been informed that, "none of the certified copies of the priority documents have been received". All the requirements for the foreign priority being claimed were not met. Therefore, being no fault of the Patent and Trademark Office, no correction(s) is in order here under United States Codes (U.S.C.) 254 or 255 and the Code of Federal Regulation (C.F.R.) 1.322 or 1.323).

In view of the foregoing, your request in this matter is hereby denied.

Further consideration will be given in *this matter* for, a certificate of correction under reconsideration, with its corresponding fee of \$100.00, and, upon receipt of the required documentation.

Note: for future reference, if you obtain data that clearly shows the attorney/applicant is not in error, simply include proving documentation and associated post card receipts, along with the certificate of correction or reconsideration; this may decrease the processing time of your request.
